Rep. Hamzy: Bond Commission Okays Plymouth Grant

The State Bond Commission today approved a \$27,500 grant for Plymouth that will help the town develop a state certified computer assisted mass appraisal system, state Representative William A. Hamzy, R-78th District, announced today.

“Computerized appraisal systems help make revaluations more accurate and improve and fine tune both assessment and tax collection practices,” Representative Hamzy said. “If residents believe their properties have been fairly and accurately assessed, they will be less likely to file assessment appeals.”

“Computerization has made municipal services more efficient and saved taxpayers millions of dollars over the years,” Representative Hamzy. “It should have much the same effect when it comes to assessment and tax collection practices.”

The grant also will help pay for training of town employees in assessment and tax collection practices, Representative Hamzy said.
